Skills & Abilities

- Proficient in HTML, CSS, and JavaScript for building dynamic web pages.
- Experienced in debugging and fixing issues in web applications.
- Knowledgeable in adding new features and enhancing existing web functionality.
- Skilled in ensuring cross-browser compatibility and implementing responsive designs.

Projects

Climate Track

- Built a dynamic **Weather App** with React and OpenWeatherMap API, incorporating features such as location-based weather data retrieval, temperature unit conversion, and error handling for improved user experience.

To-Do List App

- A simple productivity tool allowing users to add, delete, and mark tasks as complete. Data is saved using local Storage.

Rupee Route

- Built an **Expense tracker** app using React, JavaScript, and CSS, implementing features such as CRUD operations for expenses, local storage persistence, dynamic charts for spending analysis, and a mobile-friendly design.
